Mi table top water purifier

The first one DIY installation and change filter
400GPD RO system, with WIFI and water sensors,
in the world

Pre-order volume exceed 1 million, product
innovation created a big blast in the industry

Mi table top water purifier

Smart SUS304 Faucet ,DIY filter 400GPD
RO system
Crowdfunding @ xiaomi.com on 2016.3.1
Broke the record(RMB12million)

MI water TDS tester

Precision water TDS tester with Titanium test pin

Slim and Concise appearance

Water Proof Design

low power consumption

MIJIA smart kettle

SUS304 kettle

STRIX Thermostat

Double housing heating proof

Bluetooth 4.0 BLE and App

Temperature could adjust

Viomi V1 Under sink water purifier

- DIY filter design
- No tank ,600GPD 4+1 RO system
- Smart water inlet adapter
- High end Aquatec USA booster pump, high performance
- Full parameter detect AI water purifier
- Intelligent save water, The Pure water: Concentrated water could high to 4:1
- Smart SUS 304 faucet
- Japanese CCL UV sterilize technology, 6000h Long time life ,The bacterial reduction could reach 99.9999%,
- With Wi-Fi chip water quality sensor in the product, Could remind Show and alarm the filter status. One key buy filter.

Viomi V1 Under sink water purifier

- DIY filter design
- No tank ,400GPD 4+1 RO system
- Smart water inlet adapter
- Full parameter detect AI water purifier
- Intelligent save water, The Pure water: Concentrated water could high to 4:1
- Smart SUS 304 smart faucet
- Japanese CCL UV sterilize technology, 6000h Long time life ,The bacterial reduction could reach 99.9999%,
- With Wi-Fi chip water quality sensor in the product, Could remind Show and alarm the filter status.

Viomi S1 Under sink water purifier

- DIY filter design
- Pure tank ,75GPD 4+1 RO system
- 3in 1 filter
- Full parameter detect AI water purifier
- Smart SUS 304 faucet
- Japanese CCL UV sterilize technology, 6000h Long time life ,The bacterial reduction could reach 99.9999%,
- With Wi-Fi chip water quality sensor in the product, Could remind Show and alarm the filter status.

Viomi S1 Undersink water purifier

- DIY filter design
- Pure tank ,50GPD 4+1 RO system
- 3in 1 filter
- Full parameter detect AI water purifier
- Smart SUS 304 faucet
- Japanese CCL UV sterilize technology, 6000h Long time life ,The bacterial reduction could reach 99.9999%,
- With Wi-Fi chip water quality sensor in the product, Could remind Show and alarm the filter status.

Viomi C1 table top water purifier

- DIY installation and change filter 400GPD RO system, with WIFI and water sensors

Viomi C1 Undersink water purifier

- DIY filter design
- No tank ,400GPD 4+1 RO system
- Intelligent save water, The Pure water: Concentrated water could high to 3:1
- Smart SUS 304 faucet
- Japanese CCL UV sterilize technology, 6000h Long time life ,The bacterial reduction could reach 99.9999%,
- With Wi-Fi chip water quality sensor in the product, Could remind Show and alarm the filter status.

Viomi X5 table top water purifier

- Innovative integrated design
- Instant heating system
- No tank 400GPD 4+1 RO+UV system,
- DIY Patent filter design
- 3D integrated water channel
- Japanese CCL UV sterilize technology,
- With Wi-Fi chip water quality sensor inside
- Alarm the filter status. One key buy filter.
- Temperature and volume could adjust

Viomi X3 table top water purifier

- Innovative integrated design
- Instant heating system
- 0 Back pressure sealed Pure tank
- Self server Patent filter design
- 100GPD 4+1 RO+UV system,
- 3IN1 patent Filter
- 3D integrated water channel
- Japanese CCL UV sterilize technology,
- With Wi-Fi chip water quality sensor inside
- Alarm the filter status. One key buy filter.
- Temperature and volume could adjust

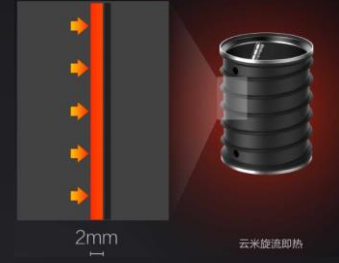

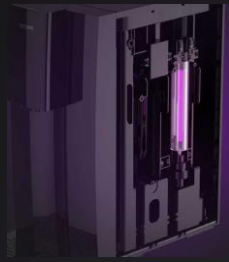

Viomi L-UV Pitcher

- BRAND NEW 7 LAYERS MULTI EFFECT FILTRATION PITCHER
- with UV LAMP INSIDE THE PURE TANK.
- INNOVATIVE 360° INLET CHANNEL, FULLY UTILIZE FILTER MATERIALS
